Education

WILFRID LAURIER UNIVERSITY

BSc Computer Science
09/20 - 04/25

Skills

DESIGN

Interface design
Interaction design
User experience design
Visual design
Responsive design
Wireframing/prototyping
Usability testing
Accessibility
A/B testing
Storyboarding
Product thinking/strategy
Illustration/graphic design

TOOLS & SOFTWARE

Figma, Spline,
Adobe Suite (Ps, Ai, Id),
Canva, Miro, Git, Notion

LANGUAGES

TypeScript, JavaScript, HTML,
Tailwind CSS, SQL, Python, Bash,
C, R

FRAMEWORKS & LIBRARIES

React, Next.js, Strapi, Mantine,
Vite, Gatsby, Expo, Vercel,
Jupyter Notebook

Experience

MOBCODER

06/25 - PRESENT
REMOTE

UI/UX DESIGNER

- Led redesign of employee profile UI for client construction management platform, enabling employees to upload certifications and licenses efficiently, resulting in 36% faster data entry and management.
- Streamlined tracking across multiple company branches, reducing administrative effort by 20% and improving employer visibility.
- Delivered high-quality, end-to-end designs from low to high fidelity prototypes, incorporating daily feedback iterations, accelerating project progress and improving workflow efficiency compared to prior iterations.

KONFER

07/24 - PRESENT
HYBRID

CHIEF CREATIVE OFFICER, FOUNDING DESIGNER

- Led creative direction across 3+ hackathons (3,000+ attendees, 35+ sponsors), designing cohesive UX and visual identity.
- Designed responsive web UIs in Figma—landing pages, dashboards, admin portals, improving mobile usability for 100% of participants and supporting ~500 daily active users per event day.
- Collaborated with 5 engineers in agile sprints, iterating designs with usability testing and ensuring smooth implementation across web platforms.

HAWKHACKS

04/22 - PRESENT
HYBRID

VICE PRESIDENT, DESIGN OPS

- Led team of 4 to design end-to-end hackathon experiences, scaling branding, landing site, dashboard UI, and visual identity to support 1000+ participants per event.
- Built modular design systems and scalable UI components, reducing future iteration time by 31% for subsequent events and product updates.
- Produced 40+ digital and print assets, enabling consistent branding across 3+ event venues and digital platforms.

CIVICONNECT

05/24 - 04/25
HYBRID

UI DESIGNER & WEB DEVELOPER

- Prototyped client UIs in Figma across 5+ industries, improving usability scores and reducing revisions by 25% per project.
- Delivered a solo full-stack project (dynamic activity calendar) used by 50+ residents and staff, demonstrating design-to-development execution.
- Bridged design and development teams across 12+ client projects, ensuring 90% consistency in visual and functional design standards.

Projects

SPURHACKS LANDING & HACKER DASHBOARD | FIGMA, SPLINE ↗

- Curated interactive landing site in Figma, incorporating animated Spline assets to attract 1300+ participants, sponsors, and volunteers, aligned with event theme.
- Designed a full-featured hacker dashboard: team management, interactive schedule, sponsor perks, user profiles, and wallet ticket system—improving participant engagement and task management.
- Built scalable, responsive components for reuse across multiple hackathons, reducing design iteration time by 50%.

HEIDEHOF DYNAMIC ACTIVITY CALENDAR | FIGMA, REACT, JSX, HTML, CSS, STRAPI

- Designed and developed responsive webpage displaying activity schedules with real-time updates for 120+ residents and staff, resulting in increase of 15% in logistics efficiency and 12% event attendance.
- Prioritized accessibility with large typography, simplified wording, and high-contrast visuals, improving learnability and usability for elderly users and retirement home staff.
- Implemented with React, JSX, and HTML/CSS, with activity data pulled from the Strapi CMS.

ARTISTS OF MODERN KAZAKHSTAN SITE | FIGMA ↗

- Translated an art history book into a modern multi-page experience, showcasing Kazakhstan's artistic impact, 60+ artists, their works, and commentary from 14 cultural experts.
- Applied multilingual support (English, Kazakh, Russian) for cultural inclusivity and broad accessibility.
- Focused on visual storytelling, editorial layout, and responsive interaction design, resulting in an engaging and educational user experience.
